

# Bartłomiej Socha

Frontend Developer

I completed two fields of study, earning degrees in Energy Engineering and Project Management. Currently, I am gaining commercial experience as a Frontend Developer, focusing on Angular environment and enhancing my skills in web application development. In my personal life, I prioritize self-improvement, consistency, and effective time management. I believe that success results from dedication and hard work.

## Work History

2024-02 - present	<b>Frontend Developer Intern</b> <i>MTU Aero Engines Polska, Rzeszów</i> <ul style="list-style-type: none"><li>Creating dynamic and responsive user interfaces using the Angular framework</li><li>Collaborating with backend developers to integrate frontend elements with APIs.</li><li>Developing applications in line with best UI/UX practices and conducting tests.</li><li>Participating in international team meetings, discussing progress, and problem-solving in line with the Kanban methodology, using Microsoft and Jira platforms.</li><li>Managing and actively collaborating on projects stored in cloud-based repositories.</li></ul>
----------------------	---
